

ALEX'S LEMONADE STAND FOUNDATION

ACTIVE AND PENDING SUPPORT FORM

Provide active and pending support for all senior/key personnel. Other Support includes all financial resources, whether federal, non-federal, commercial, or institutional, available in direct support of an individual's research endeavors, including but not limited to research grants, cooperative agreements, contracts, and/or institutional awards. Training awards, prizes, or gifts do not need to be included. Information on Other Support should be provided in the *format* shown below.

ALSF's definition of overlap confirms with NIH guidelines for the same as described below:

- **Scientific Overlap:** Scientific overlap occurs when substantially the same research is proposed in more than one application or is submitted to two or more different funding sources for review and funding consideration; or when a specific research objective and the experimental design for accomplishing that objective are the same or closely related in two or more pending applications or awards, regardless of funding source.
- **Budget Overlap:** Budgetary overlap occurs when duplicate or equivalent budgetary items (i.e., equipment, salary) are requested in an application but are already funded by another source.

INSTRUCTIONS:

Source: Identify the agency, institute, foundation, or other organization that is providing the support. Include institutional, federal, public, and private sources of support.

Major Goals: Provide a brief statement of the overall objectives of the project, subproject, or consortium/contractual arrangement.

Dates of Approved/Proposed Project: Indicate the inclusive dates of the project as approved/proposed. For example, in the case of NIH support, provide the dates of the approved/proposed competitive segment.

Annual Direct Costs: In the case of an active project, provide the current year's direct cost budget. For a pending project, provide the proposed direct cost budget for the initial budget period.

Percent Effort/Person Months: Indicate calendar, academic, and/or summer months associated with each project. For an active project, provide the level of actual effort in person months (even if unsalaried) for the current budget period. For a pending project, indicate the level of effort in person months as proposed for the initial budget period.

Overlap: After listing all support, summarize for each individual project any potential overlap with the active or pending projects and indicate clearly in terms of the science, and/or budget.
